## Alpha PNG Crack + Incl Product Key [32|64bit]

Alpha PNG is a powerful tool allowing you to save an original PNG image into a new one with semi-transparent colors (with an alpha channel). Not only can you save an image with a different palette, but you can also re-save your images preserving the palette colors, in any image size with any compression rate. It means you don't have to change the colors of your work to save it. Why use alpha PNG? - Save an original image with semi-transparent colors. - Save a new image or a palette of image with different color modes. - Add fade in or fade out effects to your image or color palette. - Save your image as a PNG with less compression (the more colors in your palette, the lower the compression rate). - Save your image as a PNG with optimized color palette (the more colors in your palette, the higher the quality). - Save your image as a PNG with optimized palette, and optimize the palette colors (to get a faster loading). - Save as a lossless PNG file. Alpha PNG Requirements: - Windows (all versions) and Mac operating systems, both 32 or 64 bits. - No special software or plugins are required! - If you need the plugins for Photoshop, CS3 is recommended.

### What's New in the Alpha PNG?

\* Support semi-transparent PNGs with an alpha-channel \* Save semi-transparent images with semi-transparent tones and an alpha-channel \* Outputs indexed color PNGs in 8-bit RGB and greyscale with 256 levels \* Optimized palette \* Smooth dithering \* 256 levels of transparency \* Automatically convert your PNGs to indexed colors PNGs from local files or online (external sites) \* Many more features to be added Alpha PNG Advantages: \* Save semi-transparent images with semi-transparent tones and an alpha-channel in 8-bit PNG format. \* Export semi-transparent images with semi-transparent tones and an alpha-channel to JPG / JPEG. \* Optimize your PNG palettes. \* Save semi-transparent images with semi-transparent tones and an alpha-channel to JPG / JPEG (localhost). \* Save semi-transparent images with semi-transparent tones and an alpha-channel to JPG / JPEG (external sites) \* Save semi-transparent images with semi-transparent tones and an alpha-channel in 8-bit PNG format. \* Save semi-transparent images with semi-transparent tones and an alpha-channel in 8-bit PNG format. \* Colorize your semi-transparent images with semi-transparent tones and an alpha-channel. \* Optimized palettes. \* Smooth dithering. \* 256 levels of transparency. \* Automatically convert your PNGs to indexed colors PNGs from local files or online (external sites). \* Many more features to be added. Alpha PNG Disadvantages: Alpha PNG can only be applied on PNG files and not on JPG, EXIF, GIF, BMP, ICO, WMF, EMF, PSD, TIFF, WBMP, SWF, WEBP, TGA and all other formats. Alpha PNG is not compatible with other plugins. Alpha PNG works only on PNG files and not on JPG, EXIF, GIF, BMP, ICO, WMF, EMF, PSD, TIFF, WBMP, SWF, WEBP, TGA and all other formats. Alpha PNG is not compatible with other plugins. Not compatible with other plugins. Not compatible with other plugins. Not compatible with other plugins. Not compatible with other plugins.
